

It is my opinion that the two most important priorities for the State of California are: 1. assuring an adequate, dependable water supply to meet the needs of the State and 2. Restoring the Delta.

With regard to Restoring the Delta, I am in support of the letter dated March 20, 2017 to the Delta Stewardship Council Members and Staff written by E. Robert Wright, Senior Counsel, Friends of the River, et al. Sometimes, and this is one of those times, the State has only one chance to do the right thing. When all of studies are completed, the answer should be obvious. Something as priceless as our Delta deserves nothing less.

Please read my comments aloud at the Board meeting.
